RESEARCH STATEMENT

My research vision is to develop generalizable AI systems for neuroscience and neuroimaging, spanning the full pipeline from acquisition to analysis to clinical translation. While my current work centers on fetal and perinatal brain MRI as one of the most data-scarce and clinically demanding domains in neuroimaging, I design methods with broad applicability to neuroscience at large. I am extending these foundations toward medical foundation models and agentic AI that can serve as trustworthy tools for both researchers and clinicians.

EDUCATION

09/2024-08/2028 Doctor of Philosophy (PhD), School of Biomedical Engineering, Tsinghua University
Advisor: Professor Qiyuan Tian

09/2021-08/2024 Bachelor of Engineering, School of Biomedical Engineering, Tsinghua University

09/2019-08/2021 Undergraduate Studies, Department of Chemical Engineering, Tsinghua University

09/2016-08/2019 High School Diploma, Changjun High School of Changsha, Changsha, Hunan

AWARDS & HONORS

Research

- A1. *Travel Stipend Award*, International Society for Magnetic Resonance in Medicine (ISMRM), 2026, 2025, 2024
- A2. *Travel Stipend Award*, ISMRM Workshop on Unlocking the Potential of Prenatal MRI, 2026 (\$ 1,500)
- A3. *Second Place in the Oral Session of AI for Image Reconstruction and Analysis*, Tsinghua CBIR Annual Retreat, 2026
- A4. *Second Prize of Oral Presentation*, BEIHAI Summit (Competition judges: Charlotte Haug, Executive Editor of NEJM AI), 2025 (¥ 2,000)
- A5. *First Place Winner of the autoPET IV Challenge*, MICCAI, 2025 (€ 1,800)
- A6. *Second Place Winner of the VLM3D Challenge*, MICCAI, 2025
- A7. *Merit Award (Top 1.6%)*, Organization for Human Brain Mapping, 2025 (\$ 850)
- A8. *Invited Student Speaker Award*, The Second Graduate Academic Forum of the School of Biomedical Engineering and the School of Clinical Medicine, Tsinghua University, 2025
- A9. *Magna Cum Laude Merit Award (Top 15%)*, ISMRM, 2024

- A10. *Best Paper Award*, IEEE International Conference on Computer, Big Data, Artificial Intelligence, 2024
- A11. *First Prize of 9th National Biomedical Engineering Innovation Design Competition for College Students (Top 5%)*, Chinese Society of Biomedical Engineering, 2024
- A12. *Third Place Winner in the Poster Competition*, Singapore AI Health Summit (Competition judges: Rupa Sarkar, Editor-in-chief of The Lancet Digital Health; João Monteiro, Editor-in-chief of Nature Medicine; Pep Pàmies, Editor-in-chief of Nature Biomedical Engineering; and Prof Catherine R Lucey), 2023 (\$ 3,000)
- A13. *Scholarship for Science and Technology Innovation Excellence*, Tsinghua University, 2022
- A14. *Second Prize of the Students Research Training Program (SRT)*, Tsinghua University, 2022

Academic

- A15. *National Scholarship (Top scholarship in China. 0.2% domestically)*, Ministry of Education, P.R. China, 2023 (¥ 8,000), 2024 (¥ 20,000), 2025 (¥ 20,000)
- A16. *Outstanding Graduates of Beijing*, Beijing Municipal Commission of Education, 2024
- A17. *Outstanding Graduate Award (Top 2%)*, Tsinghua University, 2024
- A18. *Scholarship for Academic Excellence*, Tsinghua University, 2020, 2022

RESEARCH GRANTS (Total ¥50 K)

- SG1. Haoxiang Li, Mingxuan Liu. Automated Framework for Fetal Brain MRI Image Reconstruction and Disease Risk Prediction. Qi Yan Undergraduate Research Project, Beijing Municipal National Science Foundation, 2023. (¥50K)

ACADEMIC SERVICE

Journal Reviewer

- Jr1. *Ad Hoc Reviewer*, Applied Intelligence
- Jr2. *Ad Hoc Reviewer*, Biomedical Signal Processing and Control
- Jr3. *Ad Hoc Reviewer*, Engineering Applications of Artificial Intelligence
- Jr4. *Ad Hoc Reviewer*, IEEE Transactions on Cognitive and Developmental Systems
- Jr5. *Ad Hoc Reviewer*, IEEE Transactions on Human-Machine Systems
- Jr6. *Ad Hoc Reviewer*, Neural Networks
- Jr7. *Ad Hoc Reviewer*, Neurocomputing
- Jr8. *Ad Hoc Reviewer*, Pattern Recognition

Conference Reviewer

- Cr1. *PC Member*, AAAI Conference on Artificial Intelligence (AAAI)
- Cr2. *PC Member*, ACM Multimedia (MM)
- Cr3. *PC Member*, ACM International Conference on Mobile Human-Computer Interaction (MobileHCI)
- Cr4. *PC Member*, British Machine Vision Conference (BMVC)
- Cr5. *PC Member*, Conference on Health, Inference, and Learning (CHIL)
- Cr6. *PC Member*, Conference on Neural Information Processing Systems (NeurIPS)
- Cr7. *PC Member*, IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP)
- Cr8. *PC Member*, IEEE International Symposium on Biomedical Imaging (ISBI)

- Cr9. *PC Member*, International Conference on Multimedia and Expo (ICME)
- Cr10. *PC Member*, International Joint Conference on Neural Networks (IJCNN)
- Cr11. *PC Member*, ISMRM & ISMRT Annual Meeting & Exhibition (ISMRM)
- Cr12. *PC Member*, Medical Image Computing and Computer Assisted Intervention (MICCAI)
- Cr13. *PC Member*, Medical Imaging with Deep Learning (MIDL)

International Conference Organization

- IO1. *Co-organizer*, Medical Imaging Computing Seminar (MICS), 2026
- IO2. *Co-organizer*, Beijing-Tsinghua Health AI Summit (BEIHAI Summit), 2025
- IO3. *Co-organizer*, Annual OCSMRM Conference for Celebration of Excellence in Magnetic Resonance, 2024

Invited International Talks

- T1. *INSTA: Implicit Neural Spatio-Temporal Atlas from Thick-Slice Clinical Fetal Brain MRI*, ISMRM Workshop on Unlocking the Potential of Prenatal MRI in Washington, D.C., March, 2026
- T2. *Maximizing Domain Generalization in Automatic Fetal Brain Biometry with Test-Time Adaptation*, The Second Graduate Academic Forum of the School of Biomedical Engineering and the School of Clinical Medicine, Tsinghua University, November, 2025
- T3. *Brain in Utero Growth Among Fetuses with Germinal Matrix and Intraventricular Hemorrhage*, Beijing-Tsinghua Health AI Summit (To Rupa Sarkar, Editor-in-Chief of The Lancet Digital Health), October, 2025
- T4. *FetalExtract-LLM: Structured Information Extraction from Free-Text Fetal MRI Reports Based on Privacy-Ensuring Open-weights Large Language Models*, MICCAI Workshop on Perinatal, Preterm and Paediatric Image Analysis (PIPPi) in Daejeon, South Korea, September, 2025
- T5. *Detecting Fetal Germinal Matrix and Intraventricular Hemorrhage in Brain MRI Using Label-free Deep Learning*, Annual Meeting of Radiological Society of North America (RSNA) in Chicago, November, 2024
- T6. *Image Quality Assessment using an Orientation Recognition Network for Fetal MRI (ORN-IQA)*, ISMRM & ISMRT Annual Meeting & Exhibition (ISMRM) in Singapore, May, 2024
- T7. *Label-free Image Quality Assessment of Fetal Brain MRI with Deep Learning (ORN-IQA)*, Singapore AI Health Summit in Singapore, November, 2023
- T8. *Skip-ST: Anomaly Detection for Medical Images Using Student-Teacher Network with Skip Connections*, IEEE International Symposium on Circuits and Systems (ISCAS), Online, May, 2023
- T9. *Data Augmentation Using Image-to-image Translation for Tongue Coating Thickness Classification with Imbalanced Data*, IEEE Biomedical Circuits and Systems Conference (BioCAS), Online, October, 2022

Teaching Assistantship

- *Teaching Assistant*, Medical Image Processing (Undergraduate Course, 3 Units), School of Biomedical Engineering, Tsinghua University, 2024, 2025
- *Teaching Assistant*, Technological Innovation and Challenges (TIC) 3/4, Weixian College, Tsinghua University, 2024, 2025, 2026

RESEARCH ACHIEVEMENTS

Intellectual Property

- P1. **Tian Q**, Li Z, Zheng J, Yang H, **Liu M**, Liao H. Method, Apparatus, and Electronic Device for Diffusion Prior Based

Microstructure Modeling Optimization. (ZL 2025 1 0595484.7)

- P2. **Tian Q**, Chen Y, Li Z, Zheng J, Yang H, **Liu M**. Method, Apparatus, and Electronic Device for Microstructure Parameter Estimation in Diffusion Magnetic Resonance Imaging. (Under Review)
- P3. **Tian Q**, Bai X, **Liu M**. Method, Apparatus, and Device for Vision Language Large Model Construction for Chest Computed Tomography. (Under Review)
- P4. **Tian Q**, **Liu M**, Qu H, Liao Y, Zhu J, Yang H, Yuan X. Method, Apparatus, and Electronic Device for Unsupervised Fetal Intracranial Hemorrhage Detection and Lesion Segmentation. (Under Review)
- P5. **Tian Q**, Yang H, Qu H, **Liu M**, Li H, Liao Y, Zhu J, Jia F. Method, Apparatus, and Device for Three-Dimensional Reconstruction Based on Single-Thickness Slice Scanning of Fetal Brain Magnetic Resonance Imaging. (Under Review)

Journal Articles (#Co-first Author, *Corresponding Author)

First- and Corresponding-authored
